

The 7th International meeting on Behavioural Science Applied to Surgery and Acute Care Settings

October 18-19, 2013 - Stockholm, Sweden

Program

Friday Oct 18

09:00-10:00	Registration and coffee
10:00-10:20	Welcome: Gunnar Öhlen , M.D., Ph.D., Associate professor. Chief Medical Officer, Karolinska University Hospital
10:20-11:20 Key note speaker	Jan Larsson , M.D., PhD. Department for public health and caring sciences, Uppsala University <i>"Anaesthetists' understanding of their work as a basis for professional development"</i>
11:20-11:45	Coffee break and poster preparation
11:45-12:30 Key note speaker	Jan Gulliksen , Dean, Professor in human-computer interaction. School of computer sciences and communication, Royal Institute of Technology (KTH) <i>"How modern information technology changes human behaviour"</i>
12:30-13:30	Lunch
13:30-14:30 Plenary 1	Interprofessional training Li Felländer-Tsai, Carl-Johan Wallin, Martine de Bruijne Moderator: Li Felländer-Tsai
14:30-16:30 including coffee	Poster session 1: Behaviour ratings and patient safety
<i>Tanja Manser</i>	Development of an observation system for coordination processes in surgical teams
<i>Angela Pathiraja</i>	A study of the design and development of a customised bariatric surgical checklist app
<i>John Rutherford</i>	ANTS-AP: The non-technical skills used by anaesthetic practitioners, development and assessment of a behavioural marking system
<i>Sarah Ross</i>	Non-technical skills for drug prescribing
<i>Mats Hedsköld</i>	Psychometric properties of the hospital survey on patient safety culture, HSOPSC, applied on a large Swedish health care sample
<i>Louise Hull</i>	Training faculty in the assessment of non-technical and teamwork skills: The highs, the lows, and the lessons to be learnt
<i>Matthias Weigl</i>	Identification of intra operative distractions and interruptions in the OR and associations to surgeons workload: An observational study in elective general and orthopedic surgical cases
<i>Francesca Stedman</i>	Healthcare improvement interventions: Evaluation and improvement of mortality and morbidity meetings
<i>Lauren Morgan</i>	Successful introduction of an improvement intervention, by a front line healthcare team
18:30	Dinner at Sundby Gård

Program

Saturday Oct 19

09:00-10:00 Key note speaker	Pelle Gustafsson, M.D., Ph.D. , Chief Medical Officer. Swedish Patient Insurance LÖF. "Unsafe behaviour. Why is the difference between theory and reality so large? What can be done?"
10:00-10:20	Coffee
10:20-11:30 Plenary 2	Remediation of training, handling bad behaviour Pelle Gustafsson, Jan Hedegård, Rhona Flin, one more to be announced Moderator: Rhona Flin
11:30-12:30	Lunch
12:30-14:00	Poster session 2: Training
<i>Martine de Bruijne</i>	Improving obstetrical care by multidisciplinary team training for patient referral situations. The LOCOMOTIVE study: Local Obstetrical Collaboration Multidisciplinary On-site Team-training effectiVEness Study
<i>Peter Kemper</i>	Effectiveness of a classroom based crew resource management training in the intensive care unit: A controlled study
<i>Helén Conte</i>	Way of becoming "we": Interprofessional collaboration in teams of learners in the intensive care unit (ICU)
<i>Carl-Johan Wallin</i>	Creating a safe training climate in the operating theatre; a quasi-experimental study
<i>Stephanie Russ</i>	Design and delivery of a surgical team training programme at a large UK teaching hospital: Implementation and lessons learnt
<i>Johan Creutzfeldt</i>	Using virtual world training to increase situation awareness during cardiopulmonary resuscitation
<i>Elin Johansson</i>	Inter-professional teamwork in emergency care: Pedagogical use of video in post-simulation debriefings
<i>Song-ee Ahn</i>	Learning in technology-enhanced medical simulation: Locations and knowings
14:00-14:30	Meeting closure and announcement of 2014 meeting
14:30-15:00	Refreshments and farewell

Venue

Karolinska Institutet, Alfred Nobels Allé 8, Huddinge.
